BinghamThey say don't judge a book by it's cover, and this offering is a prime example of why you should heed this sage advice. Because I am a gardiner and have a nice green house the title and cover of this book caught my attention. Normally I will not buy on impulse and like to read reviews to help make my decision to buy. The cover of this book looked professional, so in the case of this "book" I decided to take a chance. Mistake. This is really not a book, it's more of a list of 36 ideas spread across 41 half filled pages, which could easily have been presented in two pages. There is no flesh on the bones of this skeleton, no vital organs, not brain, heart, or brawn, much less methods to be learned. If you don't mind paying \$10.95 for a list of 36 ideas you could easily come up with in ten minutes on your own, then proceed to checkout, but if you are like me and expect some substance and value for your hard earned dollar, then don't waste your money.0 of 0 people found the following review helpful.
