Great book on Alliums from By PollyHaving started to collect a few unusual Alliums I felt the need for a decent reference book. Going to I found "Alliums" by Dilys Davis, so I bought it as a second hand book at a very reasonable price. What

surprised me was the great condition - it looked brand new and it arrived very quickly. Great job - I will definitely order here again.

Though it has many vibrant and elegant plants, this genus is often valued only for its edible species. Here is practical growing advice on more than 150 species of great ornamental interest.
