**Kevin McCloud : Kevin McCloud's Lighting Book: The Ultimate Guide to Lighting Every Room in the Home** before purchasing it in order to gage whether or not it would be worth my time, and all praised Kevin McCloud's Lighting Book: The Ultimate Guide to Lighting Every Room in the Home:

A room-by-room guide to lighting in the home, to suit every budget and mood. The introductory section defines different types of light, followed by case studies, in which photographs show rooms lit in three different moods and

then show how these effects are achieved.
