**Sunset Books : Landscaping for Privacy** before purchasing it in order to gage whether or not it would be worth my time, and all praised Landscaping for Privacy:

0 of 0 people found the following review helpful. Landscaping for PrivacyBy ChloeGreat book, lots of good ideas and will be very helpful with my backyard.. Pretty good shape for a used book coming from a warehouse setting.1 of 2 people found the following review helpful. Another solid Sunset publicationBy Kindle CustomerWho says mass market can't be good? The Sunset line of garden publications, largely geared for a California/Western audience, have stood the test of time with their colorful, easy-to-digest, useful information. Many photographs and examples abound in this one, as in all of the series. Some may find the information dated, but still an excellent source of basic timeless ideas.12 of 14 people found the following review helpful. Good book for the priceBy Ryan ShelbyFor the price, this book was pretty good. I would have liked to see more pictures of various landscaping techniques, but illustrations

would have raised the price. I must admit, there is a fortune of text and drawings that one may benefit from. So for the price, I give it a 4.

**NEW BOOK !** Very good condition. Shows some shelfwear. Our books are shrink-wrapped, and carefully packaged to assure your book will arrive in good condition. **SATISFACTION GUARANTEED !**
