Mitchell Gold, Bob Williams : Let's Get Comfortable before purchasing it in order to gage whether or not it would be worth my time, and all praised Let's Get Comfortable:

0 of 0 people found the following review helpful. Hmm, sorta like an ad for their productsBy eagle eyeAlthough I suppose I should have expected that. It's got some good advice about placing furniture etc which decorating ignoramuses like me found helpful. They're a bit rigid though, and again there are no examples using other furniture than their own (good though that is, a chair from them is never going to be a charming 'find'.) Good aspect is that there's no frilly over-decoration. Nice well-made meat and potatoes furnishing.0 of 0 people found the following review helpful. DecorBy DI like the style of Mitchell-Gold and hoped this book would give me new ideas. I think a good editor could have helped them produce something with more "pop". This was so-so. I own a couple of their upholstered chairs and love them.0 of 0 people found the following review helpful. Liked itBy L KirbyHave some useful ideas - but non I hadn't heard before. In a way it seemed more like a family photo album, though not in a bad way. It's a handy review and the colors used were interesting.

Expert advice on creating style and comfort in your homeYou've seen their relaxed, comfortable furniture in Mitchell Gold + Bob Williams stores, Pottery Barn, and Bloomingdales, and admired their accessories while watching Sex the City or Friends. Now you can learn from Mitchell Gold and Bob Williams themselves how to create gorgeous, yet

completely comfortable style in your own home. Inspiring color photos, floor plans and step-by-step instructions show you how to decorate and design your home, plus arrange furniture and color schemes to make any room an oasis of comfort and personal style.

From Publishers Weekly Furniture designers Gold and Williams's take on home decorating melds contemporary elements with classic design, emphasizing warmth without sacrificing style. The authors fully understand that well-made furniture is an investment, and steer readers toward classic pieces that never look out of place. Using items from their collection, they clearly and succinctly illustrate how to change the look and feel of a room on a budget by rearranging pieces, employing mirrors and slipcovers and balancing a room "in terms of 'layers.' " With an eye toward collecting pieces, as opposed to furnishing a room top-to-bottom, Gold and Williams teach readers how they can evolve their own personal style. What could have come across as a tacky advertisement is handled subtly: they refrain from using product names, tucking a short, tasteful company pitch into the final chapter. They even offer tips for flea market shopping, complete with a list of their favorite haunts. Their eye-catching and user-friendly approach to decorating makes Gold and Williams's book a fine, fresh and practical resource for basic room design. Copyright Reed Business Information, a division of Reed Elsevier Inc. All rights reserved. About the Author Since 1989, Mitchell Gold and Bob Williams have been on a mission to make people comfortable. The talented duo co-founded the trendsetting home-furnishings company, Mitchell Gold + Bob Williams, which offers upholstery casegoods, lighting, rugs, and accessories, all designed for relaxed living. You've seen their furnishings in virtually every national home magazine; on the sets of *Sex the City*, *Friends*, and *The Apprentice*; and in hotels such as *W* and *Ritz-Carlton*. Consumers know them from their award-winning national ads, which also feature beloved company mascot and English bulldog Lulu. Their furnishings are available nationwide in licensed Mitchell Gold + Bob Williams stores; chains including Pottery Barn, Restoration Hardware, Bloomingdales, and Williams-Sonoma Home; and top independent specialty retailers. Mitchell and Bob are also known for their dedication to equality in the workplace and society. And they count among their proudest moments opening the first onsite daycare center in the residential furniture industry at their North Carolina factory. The way they see it, it's all part of the comfort.
