**Roger W. Moss : Lighting For Historic Buildings (Historic Interiors Series)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Lighting For Historic Buildings (Historic Interiors Series):

1 of 1 people found the following review helpful. Five StarsBy jeffrey m cosgroveThis book has provided wonderful ideas for my old house!9 of 9 people found the following review helpful. The Resource ReferenceBy Dennis HearnNoted historian Roger Moss provides a concise history of lighting and a resource of over 480 suitable reproductions organized by light source and fixture type. Includes valuable bibliography, suppliers and glossary.

Highly recommended.

How to Light a historic interior appropriately--or create a realistic period look--can be a perplexing problem. Few people want to return to the days when light came mainly from candles, kerosene, gas or available sunlight. But acceptable ways of re-creating old lighting do exist, and *Lighting for Historic Buildings* shows how to find them. This invaluable guide provides both a history of lighting in America and a catalog of 481 suitable reproductions available today. Noted historian Roger Moss shows how interiors from the 1620s to the 1930s can be well lighted yet still maintain their character. Reproductions are organized by lighting source (candles, burning fluids, kerosene, gas and electricity) and fixture type (chandeliers, wall brackets and hall lights). Also included are chapters on street lighting and specialty items, a glossary and a reading list.
