Sebastian Conran, Mark Bond : Lighting (Soma Basics) before purchasing it in order to gage whether or not it would be worth my time, and all praised Lighting (Soma Basics):

Light has the power to relax or stimulate, distract or emphasize, and is directly related to quality of life. Conran Basics: Lighting shows readers how to create the atmosphere they want through lighting. Featured are wall, floor, ceiling, and table lights; organic and free-form designs; and styles in plastic, paper, wood, or neon. In addition, four leading designers are showcased with their signature pieces. With creative suggestions, clever solutions, and even a few tricks, Conran Basics: Lighting shows how to transform a dull room into something spectacular, full of form and drama.
