By Olunica Love the book, used it a lot, built a compost bin, raised garden and fire pit patio from it. Hubby used some tips for deck staining / cleaning / fixing. Plan for trellis next spring. There are enough info for pretty much any backyard project - decks, patios, pavement, playgrounds, etc on how to plan, where to get supplies and how not to screw up. I also like section about selecting / grouping plants, where and what to plant, soil etc. There are lots of small details even for seasoned homeowner. Plenty of color illustrations and pictures with ideas and implementations. Really happy with my purchase.
