**Paul Meisel : Making Lawn Ornaments In Wood: Complete Building Techniques and Patterns** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Making Lawn Ornaments In Wood: Complete Building Techniques and Patterns:

1 of 1 people found the following review helpful. for my dadBy Kindle CustomerI bought this for my Dad and even though they have a mound of snow he is busy cutting and painting for his yard. He's retired and needed some ideas what to do with so much wood in his shed and now he needs more. He is displaying his art at the town flea market. This is what he needed. Thanks0 of 0 people found the following review helpful. Great BookBy Stacy SandersonThis is a great book for beginner woodworkers. Patterns are great. I would suggest for anyone doing wood work to get this book.0 of 0 people found the following review helpful. This is an amazing pattern book. Perfect if you ask me. Lots of

patterns in it also. By BELINDA JORDAN SIMONI love my book. I have already made the little boy and the dog and it is absolutely amazing. Patterns are very easy to trace. The book is perfectly instructed and has tons of illustrations for you to look at. I keep my book intact and trace my patterns onto clear plastic like visquine with a black permanent marker so they will last a long time.

Detailed instructions cover from choosing wood to painting. Includes over 20 ready to use full-size patterns. New edition and the only book on the subject.

About the Author Paul Meisel has had 10 years experience as an industrial arts instructor. He now owns Meisel hardware Specialties, a project plan and woodworking supply company that focuses on distributing plans for woodworking projects that are accessible for carving students and beginners as well as experts. Excerpt. Reprinted by permission. All rights reserved. New edition with 16 pages of new patterns. Only book on the subject. Includes 20 ready to use full-size patterns.
